

This is the main section of Seneca Covid 19. There are three buttons for the users.

StudentID	UserName	UserType	UserFlagged
101492171	Gyubum Kim	Student	0
111589329	Jared Theodore	Student	0
123124255	Gifty Alivia	Student	0
126659123	Glenna Jinny	Employee	0
432432564	Blaze Maggie	Student	0
454376725	Dione Traci	Employee	0
654876365	Vic Tayler	Student	0

The user table allows users to add and edit student's information on User table. Also, the user can delete student's information. It does also allow users to reset flagged status. The button on the top right help user to refresh button.

ScreeningID StudentID CloseContact Travelled Symptoms Date

True False False

Please provide Student ID to edit, delt, or change

Add Edit Delete Refresh

This is the screening part. All of information required to be in report table has not been added yet. Therefore, users still need to add details on the screening table. This screening part allows users to add ScreeningID, StudentID, CloseContact, Travelled, symptoms, and Date. When those three questions, such as CloseContact, Travelled, and symptoms, are all true, the user will be flagged. The flagged user information will not be displayed in screening table. When user wants to change a flagged information in screening table. It will give you a warning message. There is also a button to refresh table. Please provide ID on text below.

The Report table will display combined tables at the runtime. The user can also search user's information by name. A button on right bottom is to export to a file. Please go to C:\Users\2\Desktop\PRG_Project\Prg_Project_Gyubum_kim\Prg_Project_Gyubum_kim\bin to view exported file. The button next to it is for users to refresh the tables.
